Internship

Personal Information

Born in Cannes on April 3rd, 1999, I am currently a freshman at ENSEEIHT with the aim of becoming an engineer. The Digital Sciences, specialized in computer science, programming and applied mathematics, provides me solid foundations and technical knowledge, which can be valued in the professional world.

Formations

INP-ENSEEIHT / 2019-2022

Computer Science | Applied Mathematics

Stanislas Cannes / 2017-2019

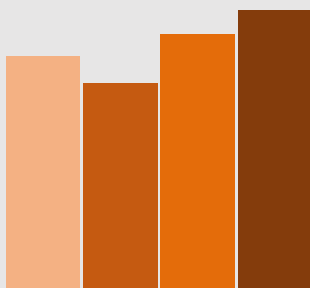

Preparatory class | MPSI – PSI

Scientific baccalaureate / 2017

Honours and European section to the French baccalaureate

Soft Skills

Team Work | Determined | Serious | Curious

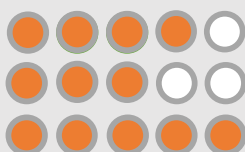

- Dynamic
- Communication
- Adaptation
- Organization

Language

English

Italian

French

Thales Alenia Space

Work Experience

Internship architect's office/ 2014

Two weeks in an architecture firm made me discover this business in all its aspects, and understand that having a vast network is essential in any professional activity, and that the organization and the know-how are the keys to succeed .

TED Talks Training/ 2016-2017

During a semester, I trained for a TED Talk in English on the wave-particle duality, an important field of physics.

Objective

I would like to do my internship for a period of 6 weeks from June in a service that will bring me know-how for my future professional integration. My interest in aerospace also makes me think that Thales Alenia Space Cannes would be an excellent opportunity for me.

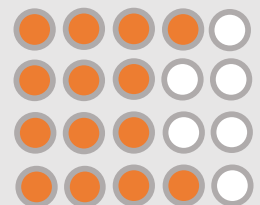

Hard Skills

Suite Microsoft Office

Programming

Mathematics

Sony Vegas Pro

- ### Interest
- Go-kart competition
 - Tennis
 - Image / Videos
 - Travelling
 - Music
 - Scale modelling
